Patient Accommodations

## Working With Our Trusted Partners

SKYVIEW SUITES

# A Word From The Team

StayWell's incredible journey to reduce the burden for patients needing accommodations in Toronto began in 2018. Our team is proud to have provided over 40,000 room nights to patients by the end of 2022, thanks to the unwavering support of our partners, donors and volunteers.

Over the last 5 years we have also significantly increased the number of hospital clinic relationships. This has enabled us to accommodate over 1,200 patients, caregivers and their families from across Canada.

We understand the challenges patients face when they contact StayWell and our ultimate goal is to alleviate the stress associated with medical relocation. We strive to provide patients, caregivers and families with a seamless booking and accommodations experience. Our booking support staff are available 365 days of the year, an accomplishment of which we are very proud.

Our biggest challenges for 2023 are the substantial growth in patient requests and the significant increase in accommodation costs.

In 2023 alone we anticipate up to 40,000 room night requests for patients who need to relocate to Toronto; meanwhile, accommodation prices have more than doubled over the past 2 years. With thousands of patients requiring support, we need your assistance more than ever.

**Sincerely,**

Steven Argyris & Sass Khazzam

# Testimonials

## What People Say About StayWell.

A lot of people politely told us that we simply don't qualify because we don't have that job or any working income which made it that much more difficult to find a place.

- Tina Proulx

I cannot say enough about the accommodations during my husband's radiation treatments. The location of the condo was perfect, the suite is brand new with everything we needed to stay safe.

- Jianne T. Google Review

At one point we thought we would have to sleep in our car as only one parent was allowed in the hospital with him at a time.

- Oliver

The accommodation StayWell provided us was wonderful. To have a place and feel like you can make it a home is so vital when in this situation. I can't thank StayWell enough for helping get the condo subsidized for us as the cost of living in Toronto is astronomical.

- Brianne Boucher

Having someone find us an apartment at a reduced rate took away some of the stress in an already super stressful situation.

- Emily Rose

**It's really important for StayWell to be able to step up and provide some sort of alternative accommodation.**
